

# THE TORCH

VILLA OLYMPIA  
OCTOBER 2007

*Olympia Salutes Our Children*  
**National Children's Day Sunday, October 7th**

*A Community Dedicated to*  
**Future Generations**

"Children hold a special place in our lives, and raising healthy, happy children is the greatest success any parent can hope to achieve; it should also be an important goal of every member of society, because children are profoundly influenced by the people and environment around them. The strongest influence, of course, is often child's family; but good schools and nurturing communities also play a vital role in helping children reach their full potential.

Let us show our love for them not only through our words, but also by making the tough decisions and important investments necessary to give them the opportunity to achieve their dreams.

I urge all Americans to express their love and appreciation for children on this day and every day throughout the year, and to work within their communities to nurture, love and teach all our children."
