April 2009

U.S. Census Bureau

April 1 has been "Census Day" for each decennial census since 1940. The date marks the start of the 1-year countdown as the United States prepares for its next census on April 1, 2010.

Please be aware that U.S. Census Bureau employees will be in Olympia during the month of April 2009. All employees are required to have governmental issued identification.

*I have always been
delighted at the
prospect of a
new day,
a fresh try,
one more start,
with perhaps
a bit of
magic waiting
somewhere behind
the morning..."*

Happy Spring Trimming

© 2003 Floridata.com

Thryallis is a small evergreen tropical shrub that grows to a maximum height of about 6 ft (0.6 m) and covers many miles on Olympia grounds. It grows moderately fast into a neat rounded shape with many slender stems that are red-dish when young. This shrub forms a dense and twiggy mass covered in light green oblong leaves. Thryallis smothers itself in beautiful yellow blossoms in late summer and fall although some flowers can be expected at all times if warm temperatures are maintained. Spring trimming of the thryallis hedge will start this month. Please be aware this might look unsightly until the new growth comes back. Depending on rain amounts and warm temperatures, this could take up to 8 weeks. Thank you for your patience while we allow Mother Nature to do her work!
